

Dear FCC,

Do not change, alter, or pass legislation that will weaken NJ's "Do not call Law". It is rare that a law works so well too improve a private citizen's life. We work hard in NJ, let us live in peace.

Prior to this law I would receive phone calls after 8PM and on weekends! Now I can enjoy dinner quietly without disturbance.

Again - leave our law alone. If anything it should be adopted by all states.

Sincerely,
Mohan Bikkina
